SimplyE
The Library E-Reader App

Getting Started

- Install the **SimplyE** app from your device's app store. The app is free to download.
(If you see New York Public Library, that's the right one! NYPL first developed the app.)

- Once installed select **Find Your Library** and select **Georgetown Public Library, TX** from the scroll down list (you can find this under A**ccounts** in **Settings**).
Input your library card number.
Your **PIN** is your 10 digit phone number.

- Now browse back to **Catalog**. You should see a wide selection of popular books, bestsellers and classics to check out! You can switch between the SimplyE catalog and Georgetown Public Library catalog with the icon in the upper left corner.

- The SimplyE Collection contains public domain books that anyone can access, even without a library card.

FAQs

Can I use SimplyE for audiobooks?

Not currently. Please continue to use Overdrive or the Libby app to check out digital audiobooks.

Can I use SimplyE with my Kindle device?

Unfortunately, no. This is a choice Amazon has made, to partner only with Overdrive for library lending with Kindles.

Why should I use the SimplyE app over Libby or Overdrive?

SimplyE is the first step in combining libraries' statewide purchasing power to have a stronger voice in policies and pricing. Currently, many publishers charge libraries three times the price that you see on Amazon... and often these books expire in a year or two! We hope this partnership will give Texas libraries a unified voice with publishers, without a for-profit hosting platform as an intermediary.
